

INDIAN PACKAGE

The Flying Club is the birth place of aviation in India since 1928. This prestigious institute has played a leading role in the history of aviation, In India.

The Flying Club has unique distinction of being the only flying club in the world, which under took the cross-country International flight from Bombay to London & back with four tiger Moths participating in it, in 1930s.

Living legend Mrs. Rabia Futehally was the first women pilot of India to obtain Private Pilot Licence from the Flying Club. Now she is member of the managing committee of this institute.

A member of this flying club R. Levy indigenously manufactured an aircraft which was named "Monsoon". It successfully flew over 50 hours. Another Member Rev. Father Constantine was the first person to fly an illuminated aircraft at night for advertisement purpose over Bombay.

The Flying Club is based at the western end of Juhu aerodrome which is approximately at the center of the Mumbai City. The Flying Club has been built to standards of comfort and convenience which surpass other training centers and provide each student with adequate space to focus on their studies in all respect theoretical & practical. The Flying Club is renowned for its professionalism. It has trained air crew who are now working as captains & engineers for domestic & international airlines such as Indian Airlines, Air India, Sahara, Jet Airways, Singapore Airlines and Emirates as well as thousands of private pilot & engineers.

Library

The Flying Club provides a full equipped air conditioned library with all types of Aviation books for the further reference of the students. we also provide some reference book to student free of cost.

Classroom

The Flying Club have 11 eleven spacious, air conditioned classroom equipped with LCD, Overhead projector Smart boards. LCD display equipped with Internet facility and LAN system.

Computer Training

The Flying Club also provides Computer training to student for knowing the latest technology in aviation industry. Organization has a 24 hr internet facility with more than 12 Computer which is connected with LAN and high broadband internet. Student can use this facility at any time to enhance their knowledge.

Playground & Canteen

Bombay Flying Club has playground facility for outdoor games. We also arranged some tournaments and encourage students to participate in various tournaments. Spacious and clean canteen which provide good food and dishes at very reasonable rates.

Transport Facility

The Flying Club provides transport facility to student. We have two TATA Buses for student which is started from Vileparle railway station to The Training Airport.

Pilot Training Base

Pilot Training Base at Juhu Airport & Dhule Airport in India.

Government of India has allotted an Air Field (Godur Airport) at Dhule near Nasik for Exclusive use of The Flying Club to Train our Pilot Students for Flying. We have all facilities of maintenance and training over here. The weather at Dhule is very conducive to flying activities all around the year, even during monsoons.

The Runway is of 4600 ft. length and 150 ft. width large hangar for night parking. The base is fully equipped with club house, resting facilities, colour TV & cafeteria.

This facilitates unhampered training for our trainee Pilots. Hostel facility is available, just 4 km away from the airfield in town. Dhule being a small place, the boarding and lodging facilities are reasonably cheap. Our TATA minibus commutes between the airfield & the hostel to facilitate transportation.

Dhule Airport is about 7 hours bus / train ride from Mumbai.
